Welcome to Lake Roland!

Robert E. Lee Park has officially changed their name to **Lake Roland!**

Haven't been by the park recently? Come and see the new improvements which uphold Lake Roland's commitment to educating the community and our future generations to connect with nature.

The proposed Lake Roland Nature and Environmental Education Center will provide year round education and meeting space with a

September 28, 2015 was the ground-breaking for the Lake Roland Nature and Environmental Education Center.

New Installations at Acorn Hill, Lake Roland's children's play area, include a 3-way slide and extension of the jungle tree gym.

Lake Roland Nature and Environmental Education Center

central location near the Ranger Station.

The Center is planned to have classroom, educational and meeting space with audio/visual capabilities, plus support space. The main space of the Center..... (continued on page 3)

"It's so important to encourage people, especially children, to connect with nature. I am proud that Baltimore County continues to make major investments in our communities..."

Kevin Kamenetz, Baltimore County Executive

DURING CONSTRUCTION !!

The pedestrian bridge may be closed during construction from time to time.

Please park at the **Falls Road MTA Light Rail Parking** to access the dog park from the Boardwalk.

More Information may be found at <http://www.lakeroland.org>.

Lake Roland Nature and Environmental Education Center *(continued from page 2)*

...can be divided into two sub-spaces with occupancy ranging from 75 to 230 individuals depending on the room configuration, with a total building occupancy of 280.

The Center will allow the County and Nature Council to provide year round education and event programming with access for special needs and handicapped participants. Its strategic location and proximity to the existing boardwalk further enhances its "transit oriented nature" – directly accessible from the Mass Transit Falls Road Light Rail Station via a raised boardwalk – the first of its kind in the Baltimore metro area.

One key design feature of the Center is that the front elevation facing the dam will be comprised of a series of operable glass doors allowing activities to extend onto the expansive deck that provides year round views of the Lake Roland Dam. In addition, there will be a deck that will also allow for increased outdoor educational programs.

The 2,594 square foot Lake Roland Nature and Environmental Education Center will be a green focused project utilizing renewable construction materials and a minimal environmental footprint. The Center is anticipated to cost \$1.3 million and will be funded through state, county, and non-profit resources including grants and charitable donations.

For charitable donations visit Lake Roland's website at <http://lakeroland.org/donate-lake-roland-nature-environmental-education-center/>.

Let's keep our park clean and safe!

1. Clean up after your dog.
2. Dogs must wear their Paw Point tags.
3. Leashes are REQUIRED, except inside Paw Point Dog Park.
4. Members only inside the dog park to ensure safety of your dog.
5. Allow time to walk back to the car before the park closes at sunset.

Paw Point Dog Park *Howl-o-ween Party*
